Here's the 2025 report! The bottom line is that we made \$5700 in profit for the year, which is great! Our income for the year was the highest since 2021, and it might have been our highest ever. The Bikery is definitely growing steadily.

We sold fewer bikes in Q4 but they were at a relatively high value each, so it wasn't too

Q4 was definitely worse than Q3, losing about \$5k, but that's kinda to be expected with low sales and high spending happening at this time of year.

Cash on hand is still pretty good. Still figuring out how to transfer funds to Vanguard.
